PROGRAM: Lt. Col. (Retired) Dominic Otoe

Dominic was introduced by Ed Lausch, highlighting his present works with his advocacy for veterans and his multiple publications on military history.

Dom explained that he comes from a military family and was proud to serve 26 years in the US Army, rising to the rank of Lt Colonel. He served

4 tours in Iraq and Afghanistan and survived a horrendous explosion in 2008, destroying his 30,000 lb. uparmored truck and killing 3 of the 5 people inside. For this and other activities he received numerous honors and multiple Purple Hearts.

What he really wanted to present were the three lessons he learned, first from his high school wrestling coach and in his many years in the military:

1. Be Humble – Words matter little – actions mean a lot
2. Never Give Up – break tasks into manageable bites that can be successfully completed
3. Selflessly Serve Others – not because you have to but because it is the right thing to do.

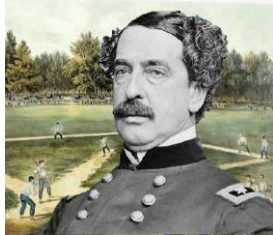

Thought of the Week: Success isn't about how much money you make; it's about the difference you make in people's lives.

— Michelle Obama

Trivia Question for the week: At what temperature will an egg fry on a sidewalk?

Answer from last week's trivia question: Which sport is Civil War General Abner Doubleday associated with?

Abner Doubleday was a U.S. military officer who served as a Union general during the Civil War. He fired the first shot in defense of Fort Sumter, the opening battle of the American Civil War. In 1907, 14 years after his death, Doubleday was declared by a special commission to have invented the game of baseball. He was credited with inventing the game in the summer of 1839 at Cooperstown, New York. This claim was later proven to be a myth. Despite the lack of any evidence linking Doubleday to the origins of baseball, Cooperstown was chosen as the site of the National Baseball Hall of Fame.
