SUPPORT OUR SAFETY AROUND WATER PROGRAM

THE NEED

Every year there are an estimated 320,00 drowning deaths.
The majority of which are children ages 1-4 followed closely
by children aged 5-9.

THE SOLUTION

The BVFYMCA's tuition free SAW program teaches children
life-saving swimming and water safety skills. These skills
build confidence, encourage physical activity, and keep
children safe through curriculum that includes swim-float-
swim and jump-push-turn-grab.

HELP OUR FINANCIAL ASSISTANCE PROGRAMS

THE NEED

The economic impact of obesity, heart disease, and diabetes in Ohio is more than \$20 million each year. More than 65 percent of Licking and Muskingum County residents are overweight or obese. At the same time, people living in the grey area between poverty and financial security struggle to afford necessities – making fitness and healthy living difficult to prioritize.

THE SOLUTION

The Y's vision is to ensure that all families can participate at the Y, where their well-being is valued regardless of their ability to pay. And that is why we offer financial assistance to any member who needs it.

St. Patrick's
Day*
