Bennet Wright  
Executive Director of Alabama  
Prison Sentencing Commission

Big issues:  
•US Dept. of Justice letter- to control or provide  
prison violence, sexual abuse, health care and  
mental healthcare  
•Space- There's not enough room and the prisons  
are old and not adequately staffed.  
•Prison Size and population equals overcrowding  
  
The state has failed to adequately fund district  
attorneys and county-level supervision programs  
that could help keep offenders from going to pris-  
on or returning.
