President-Elect

Jackie M Adkins  
Secretary

Brian Dougherty  
Treasurer

Mary Frances Bickerstaff  
Club Director  
Club Public Image Chair

Robin Kaiser  
Club Admin Chair  
Club

A poster for "Disease Prevention and Treatment Month". It features a large yellow Rotary International logo on the right. The text "DECEMBER IS DISEASE PREVENTION AND TREATMENT MONTH" is written vertically on the left. Below the main text, it says "Disease prevention and treatment takes on many forms, supporting studies to helping immunize people to improving drinking water and the sanitation infrastructure." At the bottom, it says "Rotary" with a small logo and "TAKE ACTION: Join a Project". The background of the poster shows a group of people in a community setting, with one person in a red shirt and another in a blue shirt.

Disease prevention and treatment is one of the Rotary Foundation Areas of Focus. And for good reason. The health and vitality of a person, a family and a community can be seriously impaired by what in many cases is a preventable disease. Disease prevention is really a keystone to progress in other areas as well, because of the interplay with other areas of focus, like Water and Sanitation and Maternal & Child Health.

As you know, every month is dedicated to one of the major themes of our Rotary lives; this month the theme is that which RI is perhaps best known for, at least among non-Rotarians.

The eradication of polio has, of course, been Rotary International's s major worldwide, corporate effort since the early 1980's. And remarkable progress has been made. The job is not finished, however, and you can rest assured that we will not, cannot, set this torch down until that job is finished.

What can you do?

## Feeding the Valley Food Donation

Our club was able to collect and deliver 209 pounds of non-perishable goods to Feeding the Valley Albany. That equates to 175 meals for individuals in our community.

## Meet Dr. Adam Jones December 6th

Dr. Adam Jones will speak to the club on Tuesday, December 6th about the importance of screening for lung cancer.

Dr. Jones moved to Albany and joined Radiation Oncology Associates in July 2014. He was raised in Statesboro, GA and attended the University of Georgia where he graduated with a bachelor's degree in Biology. He received his medical degree from Mercer University School of Medicine and his formal training in Radiation Oncology while attending the University of Minnesota.

Dr. Jones is a member of the American Society of Therapeutic Radiology and Oncology (ASTRO) and is board certified by the American Board of Radiology (ABR). He is an appointed community faculty member for Mercer School of Medicine and Augusta University, Medical College of Georgia. He enjoys teaching and clinical research.

## Events

### Birthdays

Gayle B. Woolard  
 December 10th

Ana-Nicole Baggiano  
 December 24th

Sonya Spalinger  
 January 2nd
