## Today's Featured Speakers – Kim Franklin and Anna Scott

Kim Franklin holds a master's degree in Health Administration from the University of Cincinnati. She is currently a Program Manager for the Georgia Chapter of the Alzheimer's Association. Kim has been with the Chapter since July of 2006. She is responsible for overseeing programs and outreach in the state of Georgia. She has trained several thousand professional and family caregivers statewide through in-services, conferences, and full day trainings about providing care for individuals with Alzheimer's and related dementias.

Anna Scott is the Alzheimer's Walk Manager, and she is excited to raise awareness and funds for Alzheimer's care, support, and research. She invites Gainesville and surrounding area residents to join the fight to end Alzheimer's by participating in the 2023 Walk to End Alzheimer's – Gainesville, GA on Saturday, October 7, 2023 on the Midland Greenway.

### Research Updates: The Era of Treatment

Alzheimer's is a global health problem with more than 6 million people living with the disease in the US alone. Tremendous gains have been made in the understanding of the science and basic biology underlying Alzheimer's and other dementias. These advances are leading to great strides in strategies for prevention, detection, diagnostics, and therapeutic interventions. The Alzheimer's Association is a global leader in research, mobilizing the field to advance the vision of a world without Alzheimer's and all other dementia.
