**Tuesday's Speaker is Mike Herrin
Executive Director Monticello Opera House**

Nestled like a dowager aunt — refined and tasteful, if seemingly a bit out of place — the Monticello Opera House sits shoulder by hip with a Marathon service station and a bait store, all circling the gloriously restored pastiche of the Jefferson County Courthouse in the center of the city of Monticello.

Here, magnolias abound, and century oaks arc, even as they share turf with a few pairs of palms. Luckily, the accelerating engines of passing heavy trucks can't be heard inside the Opera House. Instead, the MOH seems to ignore the noise and the somewhat hard scrabble of its surroundings and lifts its hoary chin as it proceeds into its 131st year.

Countries in yellow are endemic; ¹Data reported to WHO HQ on 04 Jan. for 2022 data and 03 Jan. for 2023 data.

²Wild viruses from environmental samples, selected contacts, healthy children and other sources. Last WPV type 3 had its onset on 10 November 2012. ³Between 27 Sep 2015 and 27 Sep 2016, Nigeria was not classified as endemic, and declared Wild polio-free as of June 2020. ⁴Exceptionally reporting case-contact of a positive index case given the date of collection is later than the onset date of the most recent WPV.

Data in WHO HQ as of 03 Jan. 2023
