Member Spotlight KARLA MORENO

Member Spotlight KARLA MORENO

Karla is the Vice President of Ironshield Security, a Residential and Commercial Security company. Karla is a graduate of the State University of New York majoring in Psychology. Using her degree, she founded a clinic in Mexico City where she spearheaded children and family development. She also handled all aspects of public relations including newspapers, magazines, and radio. Her parents moved to Texas from her hometown of Mexico City to oversee operations of their international corporation. Texas quickly became home and where she met Rene, her husband of 27 years. She has a marine biologist daughter about to receive her master's degree, and a bright high school senior son dedicated to sports, community service, and church. She is an avid lover of dogs, music, traveling, cooking, theatre, and anything to do with the arts. Something most people don't know about her is the interesting political background her family has, including a Mexican president in her family tree. As the VP of Ironshield Security, she has had the opportunity to join numerous organizations to increase company outreach and name recognition. She has been in BNI for 8 years, where she served as a Director, President, Vice President, Mentor Coordinator and Educational Coordinator. She was a mentor for the Pinellas County Education Foundation where her team won 1st place and a \$5000 scholarship in 2023. Karla also belongs to the Dunedin Chamber of Commerce, Guardian Association, and is on the Executive Board of the Better Business Bureau of West Florida. Her most exciting role yet is belonging to Seminole Lake Rotary Club.

Puerto Rico Mission Trip Seminole Lake Rotary Club

Puerto Rico Trip

We arrived in Aguada PR. The view is from the place we are staying at while here is amazing. The building is a bakery on the first floor and the sleeping quarters upstairs. The building and business is owned by our amazing hostess Mirabel. Last year we completed the interior of a small home, tiny home for a single mother with a handicapped son. Over the summer a large tree fell on the house and destroyed most of the roof. We are in the process of rebuilding the roof, fixing the interior that was damaged, and we have also added a walkway because the house sits up on a hill with a very muddy slope going up to it. We also had the opportunity to Join the Mayagüez Rotary Club at their meeting.
