The Rotary Club of Sarasota Bay and the Eastern North American Chapter of ESRAG cordially invite you to meet Rotary's Environmental Leaders, who will be visiting Sarasota from Canada southward to our hometown to exhibit their clubs' exiting work to advance environmental sustainability

Ever since Rotary International designated Environmental Protection as its Seventh Area of Focus, Rotarians from around the world have embraced the environmental cause and actualized their enthusiasm in service projects to plant trees, clean polluted waters, engage youth, and otherwise promote the sustainability agenda. Sarasota is pleased to host a small convention of environmental leaders from clubs in eastern North America, who will be proudly exhibiting their work in informational posters and seeking to learn about your work here in Sarasota. Please take a few minutes to stop by our exhibition, enjoy some juice and cookies, and meet people who have come all this way to tell our community about their projects and learn about ours.

For more information, please call contact Charles Reith at 703-342-6185 or charles.c.reith@gmail.com

Terry Bracket, Wheelchair and all attends 2024 Sarasota DGE HomeStay Banquet

If you didn't know, our beloved Terry fell and broke a couple on bones while volunteering at an animal rehab center in Utah on January 10th. She was operated on that evening and flew home 2-days later to greet her guest DGE and husband. Terry insisted then stay in her home prior to her return on Sunday. Her close friend Pam Horowitz drove Terry, wheelchair and all to the event with their Australian guests.
