Rotary International News - December 23, 2024

After devastating floods displaced 8 million people in Pakistan, around 45 local Rotary clubs launched a climate-resilient initiative to rebuild rural communities — the Smart Villages project.

What makes these villages “smart”?
Flood protection & eco-friendly homes
Solar-powered wells & internet access
Women’s workshops for livelihoods

So far, 12 villages have been built, housing 1,200+ people, with 13 more on the way.

Now You Know - Exchanging Banners

One of Rotary’s most colorful traditions is members’ exchanging club banners. Clubs display their own decorative banners at meetings and district events, and Rotarians who travel to other countries often take these banners to exchange with the clubs they visit.

The banners often include symbols or images of a club’s town, region, or country. Some represent local cultural traditions or artistry by featuring leatherwork, weaving, embroidery, or hand-painted designs. Many of the banners are works of art in themselves.

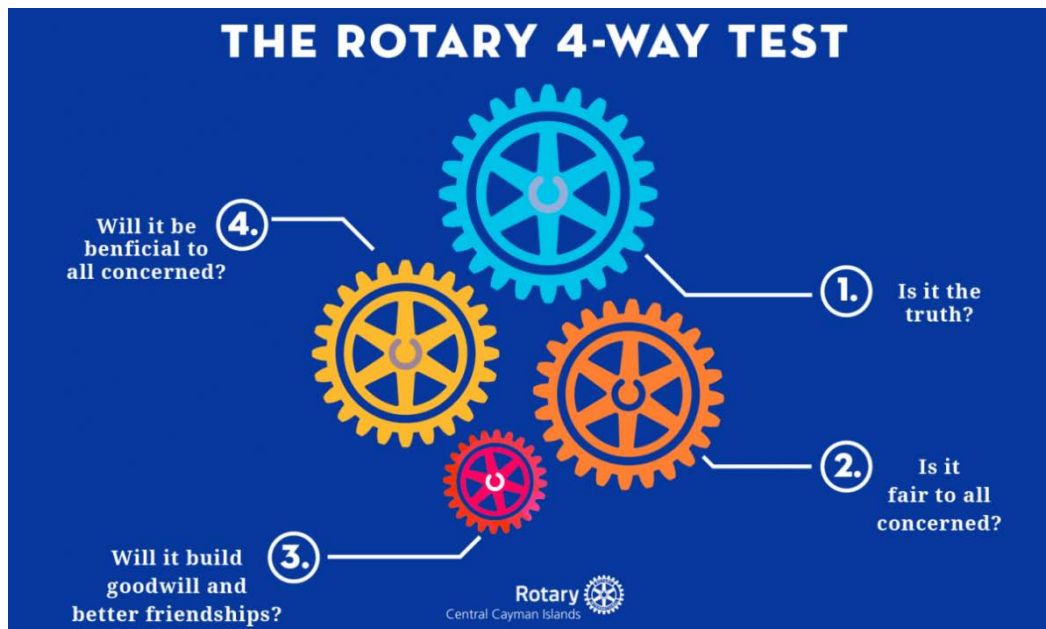

Exchanging banners became so popular that the Rotary International Board of Directors was concerned that the practice would place a financial burden on clubs. In 1959, it urged members to “exercise discretion, moderation, and measured judgment in making provision for such exchanges.”

Today, the tradition continues as a way for clubs to express their friendship.

The approximately 20,000 banners in Rotary’s archives reflect clubs’ hometown pride and their connection to Rotary International.
