Vision - Universal sustainable access to safe drinking water, sanitation and promotion of good hygiene practices throughout Haiti

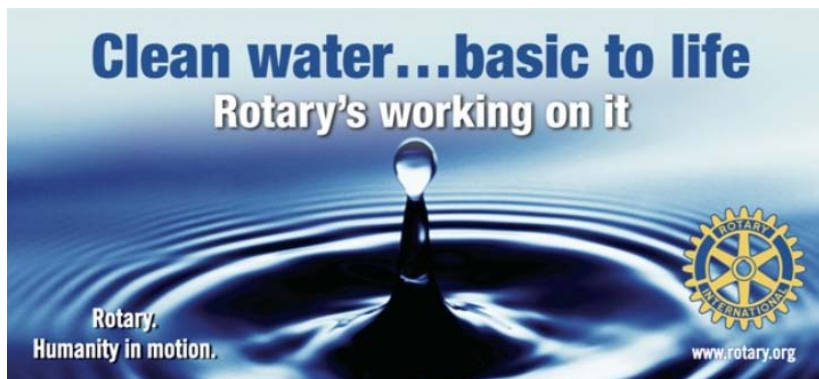

Mission - To develop and implement business-based best practices for public and private collaborations to build capacity in local communities to deliver drinking water and sanitation to all citizens of Haiti

Recognizing that no organization can accomplish this vision alone, HANWASH serves as an umbrella organization to bring together many diverse partners within the water and sanitation sector in Haiti.

The concept of a national strategy in the form of HANWASH emerged in early 2017 during discussions between various levels of Rotary, both in Haiti and internationally, including leadership of Rotary District 7020, Rotary International, The Rotary Foundation, and the WASH Rotary Action Group.

In January 2018, these conversations resulted in the signing of a resolution between Rotary and DINEPA (Haitian government's National Directorate for Water Supply and Sanitation) agreeing to develop and implement a partnership to support the Haitian government in achieving the goal of universal access to water, sanitation, and hygiene. On this basis HANWASH was born with the mandate to create a structure and business plan to deliver clean safe water, enhance sanitation and hygiene for all the citizens of Haiti.

President's Message

Rotary International's theme for this month focuses on Clean Water, Sanitation and Hygiene. Providing this service is fundamental to improved living conditions and reducing water borne diseases, such as the wild polio virus. While we often take our water supply and sanitation for granted, we have only to look at the news to realize that it can be interrupted by any number of causes. As Rotarians, we recognize that many in this world are not as fortunate as we are. And so, we contribute to the Rotary Foundation to enable it to support regional initiatives for clean water and improved sanitation.

Our club has and will continue to support a number of regional programs, with the most prominent being, HANWASH. We have a great line up of guest speakers this month, with the first being Past District Governor Cynde Covington who will provide an update on the program. Cynde will be followed next week by Past President Kirk Young, who will discuss efforts to bring clean water and sanitation to Haiti.

On a slightly different note, our third speaker is Clay County Fire Chief, Lorin Mock, who will assist us in presenting the First Responder of the Quarter Award, while our final speaker for the month is CEO of Impact Clay, Connie Thomas, who will brief us on the College Drive Initiative including the proposed Pond- to-Park project.

I look forward to seeing you at the meetings.

Yours in Rotary Service,
Bo

New Member 7 Day Notice

~ David Broskie, Superintendent Clay County District Schools

~ Patrick Kennedy, CEO Basca, Inc

Club Happenings

CLUB MEETINGS

March 7th, 14th, 21st and 28th
