HANWASH

HANWASH

Haiti National Water, Sanitation and Hygiene Initiative

HANWASH (Haiti National Water, Sanitation and Hygiene Initiative) is a collaborative national initiative to provide safe, sustainable, and affordable water and sanitation to all the citizens of Haiti, along with the associated health, community and economic benefits. This initiative is led by Rotary International District 7020 and DINEPA (the Haitian Government's National Directorate for Water Supply and Sanitation), along with other non-governmental organization (NGO) partners, such as Haiti Outreach.

In 2010, the United Nations General Assembly recognized the human right to water and sanitation. In 2015, the United Nations declared 17 sustainable development goals (SDGs) for the world to achieve by the year 2030. SDG #6 is clean water and improved sanitation facilities for everyone in the world. HANWASH is committed to work to achieve that goal for the people of Haiti.

Vision -

Universal sustainable access to safe drinking water, sanitation and promotion of good hygiene practices throughout Haiti.

Mission -

To develop and implement business-based best practices for public and private collaborations to build capacity in local communities to deliver drinking water and sanitation to all citizens of Haiti.
