Today's Speaker/Program

Vanessa Miranda of Preferred Claim Solutions talked to the Club about public insurance adjusters. Her firm is located in Palmetto Bay and is licensed in Florida plus Georgia, Texas and other states. A public adjuster assists the insured in getting the best insurance recovery from the insurance company when there's a claim. But adjuster can also help homeowners by careful documentation of their existing items and house condition with free home inspections before any claim. Nick Pestana said the company provides a free hurricane booklet about the claims process and the paperwork needed for a claim.

An adjustor is paid a percentage of the insurance recovery. They can also advise homeowners about the construction process to rebuild a damaged property. They employ trained professionals to spot problems with a claim or with remediation. Their best assistance is guidance on the process, not just recommendations for workmen fixing a house. Preferred Claim Solutions hurricane packets are available through their website at preferredclaimsolutions.com and at their office in Cutler Bay.
