Fun Facts:

- Although Italians were the first to make denim (invited in the 1500s in Genoa, Italy to be used by the Italian Navy), the material itself came from the French city of Nimes. De Nimes, which means from Nimes in English gave the material its name.
- Call the six-sided Rubik's Cube puzzle a toy at your own risk: Ernő Rubik, the Hungarian who invented it in 1974, prefers to think of it as a piece of art. If so, the 350 million-plus cubes sold over the past 40 years might make it one of the most recognizable creative works in history. *Who can solve it without removing the stickers?*
