

A Message from the District Governor

We had a great day on the 22nd of October at the Fall Workshop. We had just about 80 participants and great discussions about how our Public Image lays the groundwork to support our Membership and Foundation committees. In short, it is all interwoven. The key to increasing Club membership and support of the foundation is through Public Image. And, all we need to do is share our successes.

Tell me about the great work that you do! Share your projects with me! Let me know how you bring in new members! Our ability to change the world begins locally. You provide our members the opportunities to serve. This District is filled with talented individuals dedicated to positive change. Just let me know about the amazing activities that your Club has going on. I look forward to hearing from you!

Until next month.
Jack (jcohen@zoominternet.net)

Playground closes for next round of improvements

Crutches for Africa

By Lee Dyer

On Saturday Nov 29 several members of the Keystone Club along with a number of volunteers worked for several hours to load an 80' shipping container, destined for Africa, with 2500 plus mobility devices for those individuals with very serious health issues.

There were 2 other containers being loaded at the same time. One in Denver and another in New England. Collectively we shipped close to 10,000 units to those in need. In addition to 10,000 people now able to move around more freely the majority of those devices were destined for landfills!

Two missions accomplished with one effort. That's what Rotarians do.

Lee

Contest

Can you guess who are youngest new members of District 7280? The winner gets a special gift basket from our District Governor.

(Hint: If you are from Ellwood City, then you do not qualify for this contest.)

Email Jack with your answer...(jcohen@zoominternet.net)
