New Rotary Year

District 7305, Club 5241

From President Geno!

The meeting started as usual, but 5 minutes late because I was waiting to see if we would have more people attend. However attendance was light with I believe 12 in attendance, including our guest. Before lunch was served we took the opportunity to introduce Olliva Barefoot, our RYLA participant this year. She did an outstanding job sharing her experience and appeared to have a great time meeting and generating new friends that were fellow participants. She made her presentation without notes, extemporaneity, and displayed she is a future leader. Our club made a good investment in her as she will speak very highly of Rotary in the future. Andrew & Debbie then served lunch, which was very good, wish we would have had it last week. We then brought up Mayor Rege, who by the way purchased tickets for the Vette promotion with the efforts of Werner. He did a very nice introduction of new Chief Administrator Michael Nestico. Michael gave a thorough review of his background, including his law background and his time at Jeannette and Tarentum "check spelling" in municipal management. He appears to have much experience in government and I suspect he will become a long time administrator at Murrysville. We then had a Q&A period and there were many questions about recycling and he answered them well and was honest and stated he has much to learn about our community but was looking forward to it. One more question was ask about his families restaurant, The Nest in Jeannette, and he advised he started working there at a very young age and only until a few years ago when he had his third child did they release him from duties. Geno

Dear Murrysville-Export Rotary Club,
 Thank you very much for sponsoring me in attending the RYLA camp at outdoor Odyssey! I had an amazing week and learned a lot about how to work with a team and be a leader. This experience was one that will not be forgotten and I can't stress enough how grateful I was to go.
 Sincerely,
 Olliva Barefoot
