Pour for a Purpose at the Tech Center Concert Series

Pour for a Purpose – Volunteer at the Summer Concert Series!

Get ready to raise a glass *and* raise funds! Our Club has been offered a fantastic opportunity to staff the beer sales tent at **eight free summer concerts** — and here's the best part: **we get 50% of all beer sales!** That's right, your volunteer hours could help bring in major dollars for our service projects and maybe even some new members. The concerts are fun, outdoors, and a perfect way to enjoy live music while doing good. Grab a friend, throw on your Rotary pin/hat/shirt, and sign up to serve some suds for a cause! If you have any questions, please contact Michael Daniels.

Registration is open for the Citizen Water Academy this fall!

Ever wonder what it takes to deliver clean, reliable drinking water to your tap—day in and day out? This fall, Newport News Waterworks is pulling back the curtain with our first-ever Citizen Water Academy! This free, 6-week program offers a behind-the-scenes look at the people, places, and processes that keep water flowing to over 410,000 customers across the Peninsula. From forested watersheds to high-tech treatment plants, and from underground infrastructure to customer service, you'll experience it all. Classes are on Thursday evenings, 6–8 p.m., starting September 11 and wrapping up with a graduation on October 16, 2025. Expect facility tours, hands-on activities, and face time with the experts who keep the system running. Topics include water sourcing, treatment, distribution, infrastructure, customer support, and where we are heading. Space is limited to 20 participants, so don't wait! Registration opens August 1. Reserve your seat and learn more at <https://www.nnva.gov/cwa>, or email cmasterstaff@nnva.gov with any questions.

Texas Flood Relief

In July 2025, destructive and deadly [flooding](#) took place in the [Texas Hill Country](#), particularly in [Kerr County](#), in the U.S. state of [Texas](#). During the flooding, water levels along the [Guadalupe River](#) rose rapidly. As a result, at least 132 fatalities have been confirmed, of which at least 106 are in Kerr County, with about 170 reported missing. The flooding was caused by a [mesoscale convective vortex](#) with enhanced tropical moisture from the remnants of a short lived [Tropical Storm Barry](#).

Flooding began on the morning of July 4, after significant rainfall accumulated across [Central Texas](#). Six [flash flood emergency](#) warnings, which included the cities of [Kerrville](#) and [Mason](#), were issued the same day. The Guadalupe River rose about 26 ft (7.9 m) in 45 minutes. ^[3] It surged an estimated 29 ft (8.8 m) in the [Hunt](#) area, where more than 20 children were declared missing from a summer camp. July 5 saw more flash flood warnings for the [Lake Travis](#) area, which is part of the [Colorado River watershed](#). In the span of a few hours, the equivalent to four months worth of rain fell across the Texas Hill Country region, with the highest rain totals being 20.33 in (516 mm). This flood was the deadliest inland flooding event in the United States since the [1976 Big Thompson River flood](#), surpassing flooding from [Hurricane Helene](#) in 2024. ^{[4][5]}
