George O'Donnell of MD DNR Speaks to Issues Impacting the Chesapeake Watershed

George O'Donnell of MD Department of Natural Resources shared issues that are impacting our Chesapeake Bay Watershed. Blue catfish are an invasive species that ravage any available food source: crabs, striped bass, clams, and even ducks. They were originally introduced for recreational fisheries in the rivers of Virginia, but have spread throughout the entirety of the Chesapeake Bay. Other critical factors within the watershed include the sedimentation build up behind the Conowingo Dam and the pollution of Back Creek. He spoke to the weakness in the market for the most recent oyster harvest, the rehabilitation of oysters in Eastern Bay, and the importance of creating a positive opinion of blue catfish fillets.

Why Flags for Heroes?

Flags for Heroes is a celebration of the people who inspire us with their courage and patriotism. We honor our heroes from military service, first responders and all others who support and serve us. Individual and corporate sponsorships support the Kent Island Rotary Club installation of flags at multiple locations on Route 50. Each flag is 3 feet x 5 feet displayed on a 10 foot flag pole. They will be displayed for several weeks around Memorial Day. These beautiful flags will be a visual reminder to the vacationers traveling over the holiday to remember those who serve us. If you would like to sponsor a flag in honor of a special hero in your life or if you would like to recognize the many people who serve all of us, please visit [Sponsor a Hero](#).

It's Time to Plan for the Club Picnic!

As the flyer says, please let Gail know if you are coming. It's always a great time, so we hope to see you (and your friends and family) at the picnic!
