News for Thursday, April 15

Hello Fellow Rotarians,

Do you enjoy the **opportunity to fellowship with your Rotary brethren?**

Do you like to **volunteer for service projects** in your local community?

Do you enjoy **working outdoors for recreation and exercise?**

If you answered YES to any of these questions, please **join the Sylva Rotary Club at the Traffic Islands this Saturday at 8 AM.** The Islands need cleaning and weeding, and with enough participation we can make the main thoroughfare through Sylva shine in very little time.

This week's **program will be delivered by Professor Ashley Hyatt and the student public relations team of WCU Mountain Area Pro Bono Health Services**, whose mission is to provide effective, pro bono physical therapy and social work services to the under-served and under-insured population of Western North Carolina. MAP Health strives to improve quality of life, health, and function of its clients while serving the community and fostering student education.

As always, we will meet Thursday at Noon via Zoom.

Stay Safe, Stay Well, Stay Engaged.

Joe

How Can I Do Video Make-ups of Club Meetings?

By Scott Baker

Great question! We are recording all the virtual meetings for the club. You can get a make-up AND stay current on club happenings by watching. You get to report a make-up for watching as well! Win-Win!

Go to this web page:

<http://www.sylvarotaryclub.org/video-podcasts.php>

to get to an online list of available videos, or go to any page on our club's web site and then click the Video Podcast link menu item (shown in the image above).

Although the videos are on the club's YouTube channel, you'll need to get there by clicking on a link in the online list.

If you have any questions please contact webmaster Scott Baker.

How to add reactions in a Zoom meeting

By Scott Baker

If you'd like to add virtual reactions in a Zoom meeting, then at the bottom of meeting window you'll see a button for Reactions. Click on this and choose the reaction of choice. In your window pane in the meeting grid this reaction will appear for 5-7 seconds for all participants to see.
