Health and Happiness (Dr Johnsen): born on this day: Daniel Boone (November 2, 1734 – September 26, 1820) was an American pioneer and frontiersman whose exploits made him one of the first folk heroes of the United States. He became famous for his exploration and settlement of Kentucky, which was then beyond the western borders of the Thirteen Colonies. In 1775, Boone blazed the Wilderness Road through the Cumberland Gap and into Kentucky, in the face of resistance from American Indians.
