Happy First Week of the Upcoming Rotary Year 2022-2023!

Hoping that everyone is energetic and has many ideas and energy to jump on a committee. Please scroll on down to see who your committee chairs are and reach out to someone if interested.

This Week's Meeting:

See you on **Friday, July 8th**. Our speaker is Mr. Walter Bright. Mr. Bright is the President of the Institute of Energy Professionals.

He received his Bachelor and Master of Science from North Carolina State University in Mechanical Engineering. Prior to becoming the president of the Institute, he worked with Dewberry as a Mechanical Engineer.

The goal of the Institute of Energy Professionals is to provide the very best in practical energy management training and technical assistance to personnel from all sectors. The core of the Institute's training is the Energy Management Diploma Program, including the same curriculum and core group of instructors that have proven highly successful in producing effective energy managers for industrial, commercial, governmental, and institutional facilities. Program graduates have gone on to lead energy initiatives for major corporations, cities, colleges/universities, military installations, etc. The initial targets for the Institute program will be in-house training for major industrial, commercial, and governmental groups.
