Kathleen will give an introduction to paragliding and discuss the fundamentals of this adventure sport.

I am a Rotarian, Paraglider Pilot, and retired engineer originally from Baltimore Maryland currently living in Sunset Beach NC (heaven on earth). I studied Mechanical Engineering at Virginia Tech. I have worked in the "HVAC = heating, ventilating, and air conditioning" spheres of electric utility and equipment controls companies. Although I enjoyed the field work of examining commercial and industrial grade HVAC systems, I tired of the work environment and report/proposal writing, so I retired. Bill, my husband, says that as a retiree I spread myself very thinly. I work part-time on Monday's answering phones and stuffing envelopes for a local financial advisor's office so I can tell when one week ends and the next begins. Hacking with

the community's nine hole ladies league gets me out in the fresh air. I enjoy rides with a group from a local motorcycle shop (a mid-life crisis hobby). I spend one day a week with my 90-year old father and get my adrenaline rush by white knuckling while he drives. I practice my paragliding skills at the beach, hopefully weekly. I have a paragliding motor which I do not use because I am currently looking for a farmer with an appropriate field for me to use as a launch/landing strip. Finally and most importantly, I am the President-Elect from the South Brunswick Islands Rotary Club.

We have done **GREAT** on Silver Sponsors and the Grand Sponsor but we really **STINK** when it comes to getting banner and hole sponsors.

Still need teams. Only a few weeks left and we will be playing -- the more the merrier.

Humor - Or Is It?

"What's your dream job?"

"Well, in my dreams, I don't work."

Parallel lines have so much in common.
It's a shame they'll never meet

I know it's time to clean out my purse when my car assumes it's a second passenger who's not wearing their seatbelt.

What did the mustard say to the tomato sauce when it was about to win the race?

Ans. It looks like you are going to have to ketchup.

**Do not sit on
a floor without
a plan on how
you will get up!**

**Today a man knocked
on my door and asked
for a small donation
towards the local
swimming pool. I
gave him a glass of
water.**

**I can't believe
I got fired from the
calendar factory.
All I did was take
a day off!**

**Don't spell part
backward.
It's a trap.**

**Money talks.
Mine always says
Good Bye.**

Most people are shocked when they find out how bad I am as an electrician.

I find it ironic that the colors red, white and blue stand for freedom until they are flashing behind you.

**I hope when I
inevitably choke to
death on gummy
bears, people just
say I was killed by
bears and leave it
at that.**
