Better Health is a non-profit that provides free health services for individuals who do not have insurance or the money to pay for prescriptions, emergency Dental extractions, diabetes test materials and training courses, child obesity and weight control classes, dietary education, and hospital beds, wheel chairs, walkers, etc. Better Health provides two education clinics and screenings a week, training on how to draw blood for blood sugar tests. Patty said that most of the people Better Health sees have type 2 diabetes. She said it is believed that only half the people who have diabetes or who are pre-diabetic are aware of it. Most seeking help want to know what they can and should eat. To cover the cost, Better Health is funded by grants and donations, including from the United Way.
