# Who Am I?

1. Was invited to meet the Four Seasons after a concert but declined because her father would not approve.
2. Took algebra three times before finally passing it.
3. Lived in Brussels for a semester supervising student internships at the European Union.

Two of our longest serving members: George Lockamy (in the foreground) joined Rotary in 1978 and Frank Lee joined in 1974. Asked why they joined, George said he was intrigued with the strength of the Club and its' membership. Frank said he was recruited by Perrin Powell, who at the time was the youngest member and he wanted someone younger than him!
