## Last Week's Program

Vivien Hudson with SCORE told the Club about the work their national organization does, helping small business start ups from the idea phase to marketing to contract assistance. They are always looking for business people with expertise to become mentors. Learn more: <https://www.score.org/> She told us about the 3 phases of life: learning, earning, and returning. Working with SCORE is an opportunity to return wisdom you have gained and pass it along to a new business owner.
