## Last Week's Program

At our last regular meeting John Tynan of the Conservation Voters of SC told the Club their mission is to fight for the air, land, and water of SC through a bipartisan and pragmatic way. They see their job as to educate, advocate, and elect to achieve their mission. Each lawmaker receives a scorecard on how they vote on conservation issues, which are clean energy, land protection, and clean water. Want to get involved? Donate, contact your law makers, vote-especially in primaries. Learn more: <http://www.cvsc.org/>
