Last Week's Program

Beth DeCarbo published an article in the Wall Street Journal and is now turning it into a book, Mom and Pop Hardware. It is the story of her mom and dad's competing hardware stores, growing up with two very different bosses and a portrait of American during the economic tumultuous times of the late 1970's and early '80's. It is also a story of the power of community, as illustrated by the actions of the small town as they face her parents' illnesses.
