## Last Week's Program

Halsey Cook informed the Club on Milliken's enterprises: 44 plants in 15 countries with 8,000 associates making 11,000 products. 4 business lines: textile, chemical, flooring, and healthcare. "Milliken is now as much a chemical company as a textile company." He provided an overview of the 5 large acquisitions Milliken recently undertook, which represents \$500M in revenue. He says they are the only domestic manufacturer of fleece, so if you buy a Northface jacket, it is a Milliken product. The 157 year old company has a strong vision for the future.
